CITY OF OREM
OFFICE OF THE CITY MANAGER

December 7, 2006

To: Mayor and City Council

Subject: Comprehensive Annual Financial Report

In our ongoing efforts to provide more comprehensive financial information regarding the City, the Administrative Services Department has now completed its eighteenth Comprehensive Annual Financial Report.

The report contains critical financial information regarding the City's activities over the past year. The report of Osborne, Robbins & Buhler PLLC resulting from their annual independent audit are included as a part of this annual report. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City.

We believe that the data, as presented, is accurate in all material aspects and fairly sets forth the financial position and results of operations of the City as measured by the financial activities of its various funds. Disclosures necessary to enable the reader to gain an understanding of the City's financial affairs have also been included.

This year's report has been prepared according to the guidelines set forth by the Governmental Accounting Standards Board's (GASB) Statement 34. In accordance with those guidelines and those recommended by the Government Finance Officers Association of the United States and Canada, this report consists of the following three parts:

1. An introductory section including a transmittal letter from the Administrative Services Director.
2. The financial section, including management's discussion and analysis, financial statements, and the independent auditors' report.
3. The statistical section, including a number of tables depicting the financial history of the City.

In relation to part three above, the City has implemented GASB Statement 44, *Economic Condition Reporting: The Statistical Section*. GASB 44 replaces the 15 statistical tables that were required to be presented as part of a comprehensive annual financial report. Rather than simply making a list of required tables, GASB 44 establishes five broad categories of information that should be presented and outlines the objectives of each category. The categories are as follows:

1. Financial trends
2. Revenue capacity
3. Debt capacity
4. Demographic and economic information
5. Operating information

The City concluded the year ended June 30, 2006, in sound financial condition. The following is an overview of the City's financial condition.

Operating Revenues

Similar to Federal and State government trends, major tax revenues have been up for nearly three years and this trend is continuing. As revenues continue to increase, only a portion of the growth will be used for additional operational expenses such as hiring more public safety officers or creating new programs. A significant portion of any additional revenue will be used to fund capital projects. When the next economic downturn occurs, the revenues being used for capital projects can be reduced to avoid reductions in ongoing operational programs.

Revenues for the water, water reclamation and storm water funds have provided a reasonable level of revenue in each of these areas to support both the operational and capital needs for these three critical services.

Revenues for other service areas such as residential solid waste collection, recreation programs, and street lighting are stable.

In November 2005, voters approved a 1/10 of 1% sales tax hike dedicated to the arts and recreation. This will last for 8 years and is estimated to generate \$16,000,000. The City Council is establishing a process for determining how these funds will be used for the greatest benefit in the community.

Capital Expenditures

The City's infrastructure is in good condition. Within the last year, several significant capital projects have been completed and several other projects are underway:

- A new Public Works facility will be completed by the end of December 2006. Funding for the facility was provided by selling the existing Public Works Facility and from current budgets. No bonding was involved in the purchase of the new site or in the construction of the facilities.
- A new municipal golf course has been built and paid for without any debt. Construction of the clubhouse is expected next spring. The course is being operated through a private contract.
- New streetlights have been constructed throughout the entire community and streetlights are being installed in all the city parks.
- A new 20 million gallon water tank is under construction in a joint venture between the City of Orem and the Central Utah Water Conservancy District.
- Several major storm sewer lines and two regional detention basins were constructed this year. These improvements provided a major portion of the physical facilities for Phase I of the Orem Storm Water Master Facilities Plan.
- A major renovation and expansion of the Orem Fitness Center was completed in September 2006 and was funded almost entirely by a private donor.
- Missing sections of sidewalks are being replaced along all the roads within 1/3 mile of each public school.
- Construction is underway on various voter-approved street projects.
- Fire Station #1 is being remodeled to provide improved seismic construction and to provide improved living quarters in the 30 year-old facility. This remodeling is expected to be completed by the end of December 2006.

- The 30 year-old portion of the Library is being remodeled to improve the seismic systems, heating and air conditioning, lighting and overall appearance of the facility. It is expected to be completed by the end of December 2006.

Additional Capital Needs:

- Funding to remodel Fire Station #2 similar to the remodeling being done at Fire Station #1.
- Funding for improvements to the Cemetery building and its lawn sprinkling systems.
- Funding to construct a new fire station to serve the growing population west of Interstate 15.
- Funding to remodel the City Center and to provide office space for the City Attorney's offices. This will complete renovation of existing City facilities housing City services well into the future.
- Funding for additional intersection signals and upgrading existing intersections with double left turn lanes.
- Funding for street lights in the portions of the City previously served by special lighting districts and in the City parks.

These projects will be funded over the next several years as various opportunities for one-time monies, such as land sales, unanticipated revenue, grants, and other resources become available to the city.

The preparation of this Comprehensive Annual Financial Report could not have been accomplished without the dedicated efforts of many individuals. In particular, the efforts of the Administrative Services Department staff have brought us to the point of having upgraded accounting and financial reporting systems which have improved the quality of information being reported to you, State oversight boards, and the citizens of the City of Orem.

If you have questions regarding the Comprehensive Annual Financial Report, please feel free to discuss them with Mr. Jeff Pedersen or me.

Yours truly,

Jim Reams
City Manager

CITY OF OREM

DEPARTMENT OF ADMINISTRATIVE SERVICES

December 7, 2006

Jim Reams
City Manager

City of Orem, Utah

State law requires that all local governments publish, within six months of the close of each year, a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. This Comprehensive Annual Financial Report (CAFR) of the City of Orem, Utah for the fiscal year ended June 30, 2006, is hereby submitted to you, in accordance with these requirements.

This year's report has been prepared according to the guidelines set forth by the Governmental Accounting Standards Board's (GASB) Statement 34. This report consists of management's representations concerning the finances of the City of Orem. Consequently, management assumes full responsibility for completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, management has established an internal control framework that is designed to both protect the assets of the City from loss, theft, or misuse and to allow for the compiling of sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's internal control procedures have been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. To the best of management's knowledge and belief, this financial report is complete and reliable in all material respects.

This year's comprehensive annual financial report reflects the implementation of GASB Statement 44, *Economic Condition Reporting: The Statistical Section*. The statistical section is designed to present detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Osborne, Robbins & Buhler PLLC, a firm of licensed certified public accountants, has audited the City of Orem's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Orem for the fiscal year ended June 30, 2006, are free of material misstatement. The independent audit involved examining on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement

presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Orem's financial statements for the fiscal year ended June 30, 2006, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it.

The comprehensive annual financial report is presented in three sections:

1. ***The Introductory Section***, which is unaudited, includes the City Manager's introduction of this year's CAFR, this letter of transmittal, listing of officials, and the City's organization chart.
2. ***The Financial Section***, which includes the MD&A, the basic financial statements, and the independent auditor's report on the financial statements.
3. ***The Statistical Section***, which is unaudited, includes selected financial and demographic information, generally presented on a multi-year basis.

Economic Condition and Outlook

The City of Orem is located in north central Utah and is currently the fifth largest city in the state with a 2000 census population of 84,324 and an estimated current population of 91,649. The City has been involved in active economic development over the past two decades attracting stable industries and organizations. This economic development activity has directly led to the creation of approximately 7,000 non-retail jobs and thousands of retail jobs. The University Mall is the anchor to the largest retail area between Salt Lake County and Clark County, Nevada. The Mall has been revitalized through a major remodeling project, thus bringing several large national retailers like Costco and Nordstrom. Utah Valley State College (UVSC) is a major employer in the City of Orem with enrollment in excess of 24,000 students. Currently, the City is enjoying an economic upswing over the past two years with a marked decrease in unemployment and a significant increase in sales tax collections.

Based on current projections, the population growth trend is expected to continue for the next few years. While having a positive impact, this growth also presents significant challenges for our city. If the present level of services is to be maintained, the City, in the future, will need to continue to be diligent in managing its resources.

While there have been significant increases in revenues to the City in recent years, there has been a concerted effort to limit the growth of expenditures related to operations and maintenance. Much of the additional revenue is being used for one-time expenditures such as capital projects. Accordingly, the City is well positioned to continue to provide municipal services even if the economy were to soften and the growth of revenues slowed.

Major Initiatives

For the Year

During the year, the City identified several projects needed to meet the needs of the citizens and businesses of the community. These projects included, but were not limited to the following:

- Completion or significant progress on city-wide road crack sealing projects and other voter-approved road projects,
- Completion or significant progress on missing sidewalk sections along all roads within 1/3 mile of each public school,
- The installation of street lights in many city parks,
- Significant progress on the construction of a new 20 million gallon water tank through a joint venture with the Central Utah Water Conservancy District,
- Significant progress on remodeling projects at the Orem Fitness Center, Fire Station #1, and the 30 year-old portion of the Library. All of these projects should be completed by the end of calendar year 2006, and,
- Major progress is being made on the construction of the new Public Works facility. The expected move-in date is sometime in December 2006.

The current master plans for the water, water reclamation, storm sewer, and road systems are being implemented.

For the Future

The City faces many challenges in the future, the most significant of which are:

- Road maintenance,
- Completion of the storm sewer system,
- City Center renovation,
- Construction and staffing of a new fire station,
- Treatment Plant expansion, and,
- Completion of the City-wide sidewalk system.

In November of 2004, citizens of the city approved \$14.5 million in general obligation road and sidewalk construction, reconstruction, and maintenance bonds which will address most of the City's road maintenance concerns.

Cash Management

The City follows the requirements of the Utah Money Management Act (MM Act) in handling its depository and temporary investment transactions. This law requires the depositing of City funds in a *qualified depository*. The MM Act defines *qualified depository* as "any financial institution whose deposits are insured by an agency of the Federal government and which has been certified by

the Commissioner of Financial Institutions as meeting the requirements of the Act and adhering to the rules of the Utah Money Management Council." The MM Act also defines the types of securities allowed as appropriate temporary investments for the City and the conditions for making investment transactions. Allowable investments may consist of time certificates of deposit, repurchase agreements, commercial paper which is rated P-1 by Moodys Investor Services or A-1 by Standard and Poors Inc., banker's acceptances, obligations of the United States Treasury and various other obligations of state and local governments. Investment transactions are to be conducted through qualified depositories or primary reporting dealers. The provisions of this act substantially protect the City from loss of investment principal; therefore, the City's investments are not collateralized and are not required to be collateralized by state law. The City has never lost any invested funds.

The law requires all securities to be delivered versus payment to the Treasurer's safekeeping bank. It also requires diversification of investments. The City is currently complying with all of the provisions of the MM Act for all City operating funds. Significant portions of the City's funds are invested in the Utah Public Treasurer's Investment Fund (PTIF). All deposits are held either by the City, its agent or a financial institution's trust department in the City's name.

Risk Management

The City provides for its general liability risks through a joint protection agreement with the Utah Risk Management Mutual Association (URMMA). URMMA provides for the City's lawful liabilities resulting from bodily injury, property damage, personal injury and/or public official's errors and omissions limited to \$6,000,000 per occurrence. The City maintains a Self-insurance Fund to account for and finance its uninsured risks of loss. Under this program, the Self-insurance Fund provides coverage for up to a maximum of \$400,000 for each worker's compensation claim, \$15,000 for general liability, and \$10,000 for property damage. Additional coverage for forgery, embezzlement and other potential internal losses is provided by commercial policies and is renewed annually. The City maintains a risk management section, which identifies areas of potential risk and provides training in risk avoidance and solutions to current risk concerns.

Other Information

Internal Audits

In 2005, the City Manager and Executive Staff contracted with Peterson, Allred and Jackson, CPAs for internal audit services on a quarterly basis. It was believed that improvements to the City's financial processes and procedures could be more readily identified by a third-party. These internal audits have continued through calendar year 2006.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended June 30, 2005. This was the eighteenth year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized comprehensive annual financial report, the contents of which conform to program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to conform to the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Administrative Services Department. I would like to express my appreciation to all members of the Department who assisted and contributed to its preparation and to our auditors, Osborne, Robbins & Buhler PLLC, for their cooperation. I would also like to thank the Mayor and City Council for their interest and support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

Jeffrey W Pedersen
Administrative Services Director

Carla E. Perry

President

Jeffrey R. Egan

Executive Director

The City selected the Orem Community and Neighborhood Services Division for its efforts and accomplishments. In 2006, the City Manager's Department has been selected.

City OREM Manager's Department

The department is charged with the day-to-day oversight of all City operations.

The department consists of the City Manager's Office, the Human Resource Division, Risk Management Division, Emergency Management Division, Neighborhoods in Action Office, Community and Neighborhood Services Division and the Recorder's Office.

City Manager's Office

The Council/Manager form of government was adopted by voters over 20 years ago. The City Manager's office is responsible for the day-to-day oversight of all City operations and for carrying out the policies established by the City Council. Duties also include overall financial management, contract administration and property management.

The City Manager's Office is charged with helping the City to be prepared for any and all emergencies and act as the Management Analyst for the City Manager's Office. Management duties also includes individual citizen preparation. The City sponsors Community Emergency Response Team (CERT) training each year, training approximately 80 new participants. The City also sponsors the Block Captain program aimed at providing a quick damage and casualty assessment in the event of a disaster.

Community and Neighborhood Services

The Community and Neighborhood Services Division oversees the Community Development Block Grant Program, (CDBG) offering low to moderate income level families and individuals assistance in programs ranging from learning to read to emergency repairs on homes. The grants administered by this office have helped the City to install curb, gutter and sidewalk throughout the City, as well as provide for necessary housing assistance to low-income families. The CNS Division is also responsible for working with 14 public agencies in several social programs throughout the City.

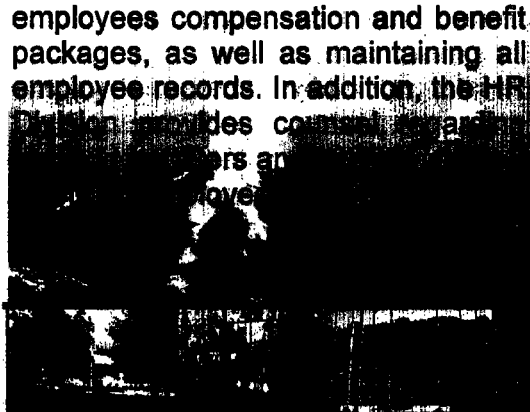

Neighborhoods
The Neighborhood Improvement Association (NIA) is charged with assisting each neighborhood in becoming organized and to address their individual needs one neighborhood-to-another. This type of program has been beneficial in other parts of the country to bring unity and cohesiveness to neighborhoods. Each year the NIA sponsors neighborhood cleanups and meetings to address individual neighborhood needs, as well as organizing town meetings.

Human Resources

The Human Resources (HR) Division oversees the hiring of all City employees. In FY 06 they processed thousands of job applications. This division oversees the employees compensation and benefit packages, as well as maintaining all employee records. In addition, the HR Division provides counsel regarding employee relations and labor law. The HR Division also oversees the City's recruitment efforts.

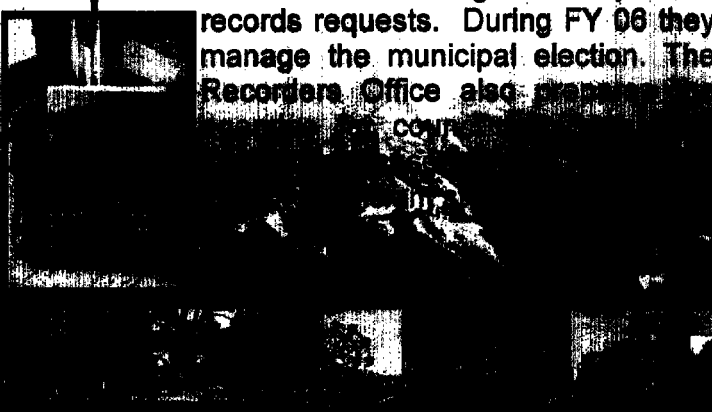

The City's Insurance Division is responsible for ensuring claims filed against the City are resolved in a fair and equitable manner. The Division also manages the City's self-funded worker compensation fund.

O R E M

Recorders

The Records Office is charged with keeping the City's records. They keep minutes of official meetings and respond to records requests. During FY 06 they manage the municipal election. The Records Office also prepares the records for court proceedings.

REPORT OF INDEPENDENT
CERTIFIED PUBLIC ACCOUNTANTS

Honorable Mayor and Members of the City Council
City of Orem, Utah

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Orem, Utah (the City) as of and for the year ended June 30, 2006, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Orem, Utah as of June 30, 2006, and the respective changes in financial position, the budgetary comparison for the general fund, and, where applicable, cash flows thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2006 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be considered in conjunction with this report in considering the results of our audit.

The management's discussion and analysis on pages 19 through 31 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Orem, Utah basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Osborne Robbins & Bakken PLLC

December 6, 2006

City of Orem
Management's Discussion and Analysis
June 30, 2006

As management of the City of Orem, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2006. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

Financial Highlights

- As of the end of the current fiscal year, the assets of the City exceeded its liabilities by \$189,792,717 (net assets). Of this amount, \$37,084,673 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- Total net assets consist of \$150,340,228 in capital assets net of related debt and \$39,452,489 in other net assets.
- As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$28,208,831. Of this amount, \$24,838,905 (88.05%) is available for spending at the government's discretion (unreserved fund balance) with the balance of \$3,369,926 reserved for capital projects and debt service.
- The City's total long-term liabilities increased by \$4,206,813 (6.31%) during the current fiscal year. This increase was primarily due to the issuance of general obligation bonds issued in March of 2006 for \$5,515,000 to be used for the rehabilitation and/or reconstruction of existing roads and the construction of new roads.
- As of the end of the current fiscal year, the City's enterprise funds reported an increase in net assets of \$2,780,049 compared to the prior year's increase of \$724,364. The increase was due primarily to increased water revenues of \$786,019, water reclamation revenues of \$976,555, and contributions from developers of \$757,370.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes other supplementary information in addition to the basic financial statements.

The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Orem's finances, in a manner similar to a private-sector business.

- The *statement of net assets* presents information on all of the City's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. However, you will also need to consider other non-financial factors.

City of Orem
Management's Discussion and Analysis
June 30, 2006

- The *statement of activities* presents information showing how the City's net assets changed during the fiscal year reported. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, redevelopment, highways and public improvements, parks and recreation, and economic and physical development. The business-type activities of the City include culinary water distribution, water reclamation, storm sewer operations, recreation, solid waste disposal, and street lighting.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also a legally separate entity, the Commission for Economic Development in Orem (CEDO), for which the City is financially accountable. Financial information for this *component unit* is reported separately from the financial information presented for the primary government itself.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental funds.** These funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable* resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and

City of Orem
Management's Discussion and Analysis
June 30, 2006

changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains nine individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, and the two capital improvement funds, which are considered major funds. Data from the other six governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

- *Proprietary funds*. The City of Orem maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its Water, Water Reclamation, Storm Sewer, Recreation, Solid Waste, and Street Lighting activities. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its service of its fleet of vehicles, for providing self-insurance, and for procurement and warehousing. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water, Water Reclamation, and Storm Sewer funds, which are considered major funds of the City. The Recreation, Solid Waste, and the Street Lighting funds are classified as nonmajor and are included in the *combining statements* within this report. Conversely, the three internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds are provide in the form of *combining statements* within this report.

- *Fiduciary funds*. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. As mentioned earlier in the highlights section, assets exceeded liabilities by \$189,792,717 at June 30, 2006.

By far the largest portion of the City's net assets (79.21%) reflects its investment in capital assets (e.g. land, buildings, improvements other than buildings, machinery and equipment, and infrastructure assets); less any outstanding debt related to the acquisition of those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Orem's Net Assets

	Governmental activities		Business-type activities		Total	
	2006	2005	2006	2005	2006	2005

A portion of the City of Orem's net assets (1.25%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets (\$37,084,673) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, there were no funds reporting a deficit in unrestricted net assets.

At the end of the current fiscal year, the City of Orem is able to report positive balances in all three categories of net assets, for the government as a whole, as well as for its separate business-type activities. In the prior year, the City of Orem was able to report positive balances in all three categories of net assets, for the government as a whole, as well as for its separate governmental and business-type activities.

City of Orem
Management's Discussion and Analysis
June 30, 2006

In comparing the current fiscal year to the prior fiscal year, the government's net assets increased by \$10,020,908 (5.57%), total revenues increased by \$10,960,412 (16.05%) due to increases in every revenue category, and expenses increased by \$5,248,670 (8.20%). The following is a summary of the changes in net assets:

Increase in net assets	7,240,859	3,584,802	2,780,049	724,364	10,020,908	4,309,166
Net assets, beginning	129,958,762	126,373,960	49,813,047	49,088,683	179,771,809	175,462,643
Net assets, ending	\$ 137,199,621	\$ 129,958,762	\$ 52,593,096	\$ 49,813,047	\$ 189,792,717	\$ 179,771,809

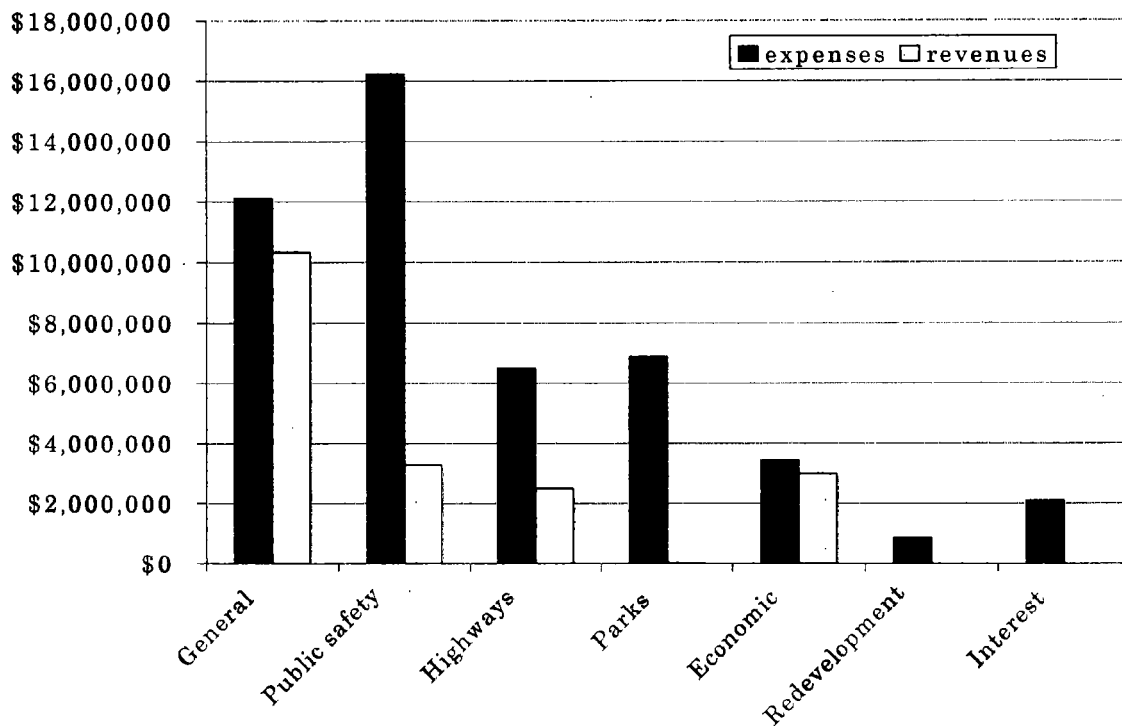

Governmental activities. Governmental activities increased the City of Orem's net assets by \$7,240,859 which represents 72.26% of the total growth of net assets of the City of Orem. The increase in net assets is primarily due to a 20.66% increase in general revenues offset by a 9.38% increase in total expenses. Key elements are as follows:

City of Orem
Management's Discussion and Analysis
June 30, 2006

- Total revenues increased by \$7,915,024 (16.45%).
- Program revenues increased by \$1,594,478. This increase is primarily due to increases in capital grants and contributions (31.16%).
- General revenues increased by \$6,320,546 (20.66%). This increase is mostly the result of growth in collections of property, sales, and franchise taxes.
- Total expenses increased by \$4,119,836 (9.38%). This increase is primarily due to increases in expenses for economic and physical development (301.84%), public safety (5.79%), and general government (4.85%). The increase in economic and physical development is due primarily to the City's involvement with the Midtown Village project which is a mixed-use commercial and residential project and the HUD Section 108 loan program.

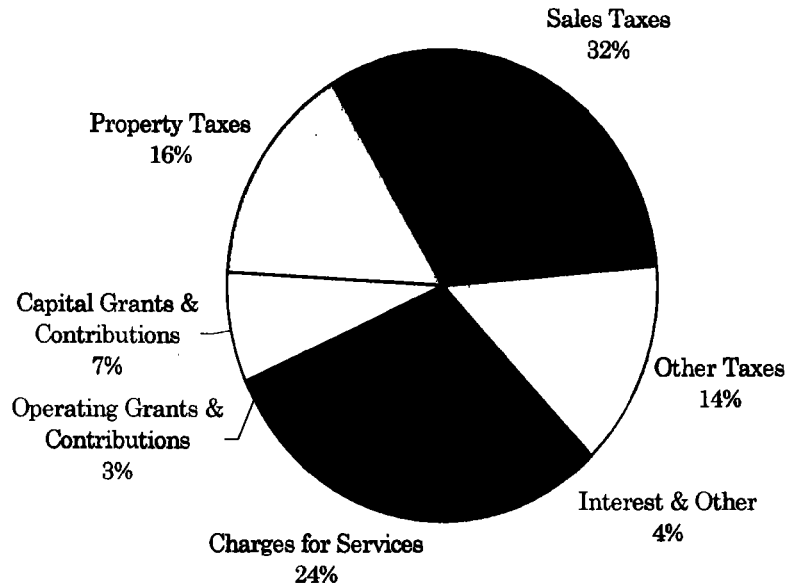

The following graphs display the governmental activities reflected in the above tables. Note that the graph below does not include general revenues of \$36,918,026 because these revenues are not specific to a particular department.

**Expenses and Program Revenues - Governmental
Activities
For Year Ending June 30, 2006**

City of Orem
Management's Discussion and Analysis
June 30, 2006

**Revenues by Source - Governmental Activities
For Fiscal Year Ending June 30, 2006**

Business-type activities. Business-type activities increased the City's net assets by \$2,780,049 which represents 27.74% of the total growth in net assets of the City of Orem. As of the end of the current fiscal year, all of the City's business-type funds reported positive net assets. Key elements of this increase are as follows:

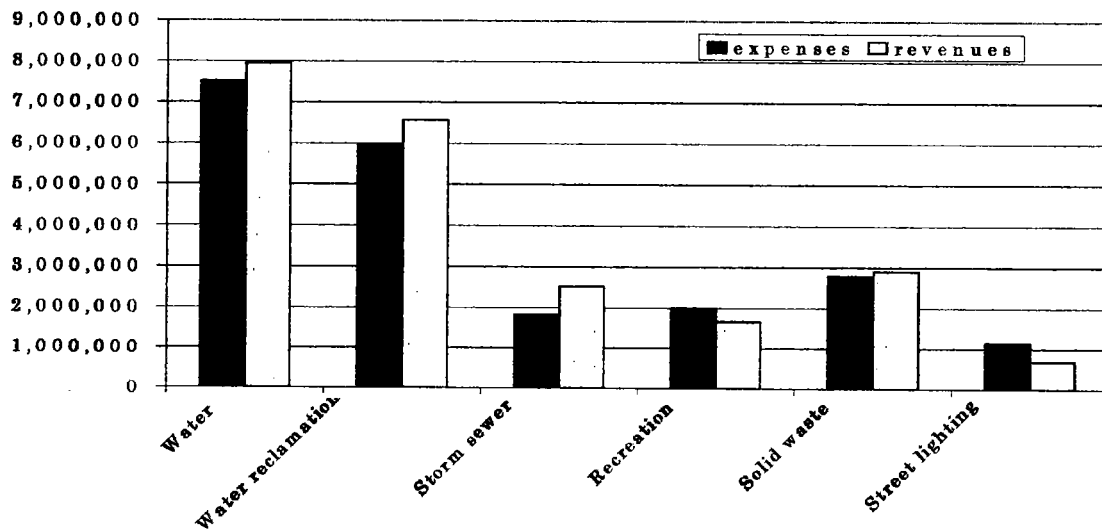

- Business-type funds reported increased revenues over the prior year of \$3,045,388 (15.10%). Total revenues increased or decreased as follows:
 - Water fund increased by 12.75%.
 - Water reclamation fund increased by 20.24%.
 - Storm sewer fund increased by 1.62%.
 - Recreation fund decreased by 6.39%.
 - Solid waste fund increased by 1.66%.
 - Street lighting fund increased by 6.94%.

City of Orem
Management's Discussion and Analysis
June 30, 2006

- Business-type funds reported total increases in expenses from the prior year of 5.63%. Approximately half of this increase is due to the water and water reclamation funds. Both funds had increases in maintenance expenditures (9.60% combined). The water fund also had an increase of 9.65% in personnel costs. This increase was primarily due to filling a division manager position that had been left vacant since the former division manager was promoted to department head. The position was left vacant due to funding issues related to the poor economy at the time. Due to workload and an improved economy, it was felt that funding was available and this position should be filled.

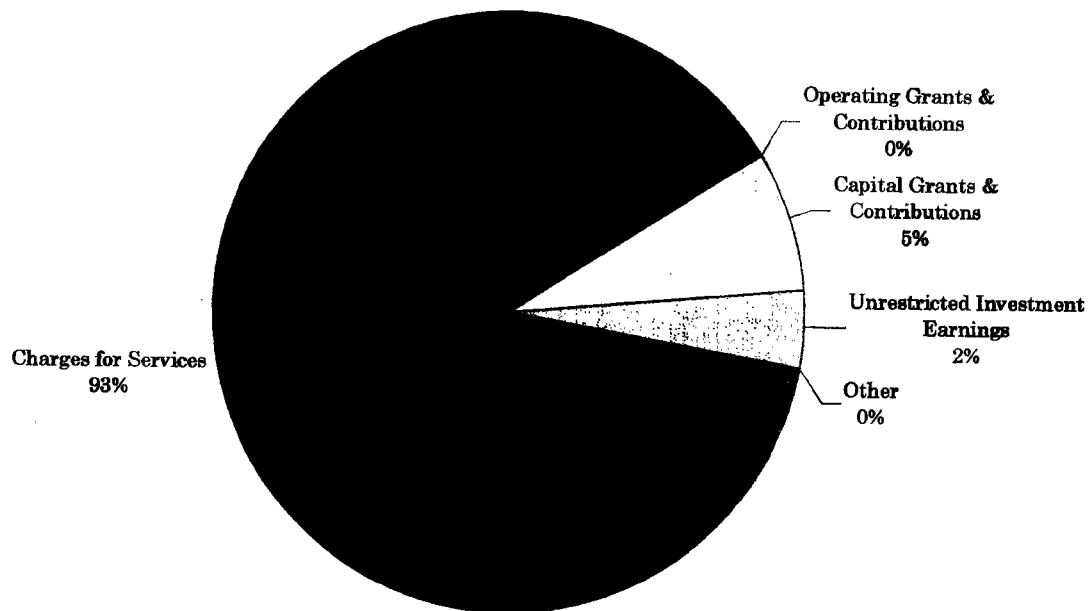

The following graphs display the business-wide activities for enterprise activities reflected in the above tables (City of Orem's Changes in Net Assets):

Financial Analysis of the Government's Funds

As noted earlier, the City of Orem uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of government's net resources available for spending at the end of the fiscal year.

City of Orem
Management's Discussion and Analysis
June 30, 2006

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$28,208,831. Of this total amount, \$24,838,905 (88.05%) constitutes *unreserved fund balance*, which is available for spending at the government's discretion. The remaining fund balance of \$3,369,926 is *reserved* to indicate that it is not available for new spending because it has already been committed to pay debt service or for a variety of other restricted purposes.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance of the general fund was \$6,140,485 while total fund balance reached \$7,493,191. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 16.08% (prior year was 18.28%) of total general fund expenditures, while total fund balance represents 19.62% (prior year was 20.48%) of that same amount.

The capital projects fund has a total fund balance of \$7,012,302, all of which is designated for the payment of capital improvement or economic and physical development projects. The net decrease in fund balance during the current year of \$285,233 represents a decrease of 3.91%.

The road bonds capital projects fund has a total fund balance of \$9,713,980, all of which is designated for the payment of road improvement projects. Although the fund received \$5,515,000 in the current fiscal year from the issuance of general obligation bonds being issued for road improvement projects, expenditures from last year's bond issuance offset most of this increase.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the water fund at the end of the year amounted to \$3,394,161. Total net assets increased by \$1,277,613 (5.56%) during the current fiscal year. Operating revenues increased by \$786,019 (12.75%). Water revenues increased as water conservation efforts by the citizens of Orem tended to decrease as improved water availability projections affected perceptions and subsequently, usage returned to historical levels. Operating expenses increased by \$370,189 (5.59%) in comparison with the prior year. Expenses associated with maintenance of the water system and personnel costs represent the majority of the increase in expenses from the prior year.

Unrestricted net assets of the water reclamation fund at the end of the year amounted to \$2,025,292. Total net assets increased by \$512,448 (3.27%) during the current fiscal year. Operating revenues increased by \$976,555 (20.24%) because water consumption is up from the previous year. The water reclamation fund computes the amount to bill the user based upon the amount of water the user consumes. Therefore, revenues for the water reclamation fund will follow that of the water fund. In response to the

City of Orem
Management's Discussion and Analysis
June 30, 2006

revenue decreases sustained in prior years and in order to maintain current services, the City Council enacted a rate increase for fiscal year 2006. Operating expenses increased by \$154,822 (2.69%) in comparison with the prior year. Expenses associated with maintenance of the sewer system and personnel costs are the majority of the increase in expenses from the prior year.

Unrestricted net assets of the storm sewer fund at the end of the year amounted to \$2,424,477. Total net assets increased by \$679,773 (7.56%) during the current fiscal year. Operating revenues increased by \$40,106 (1.62%). Operating expenses increased by \$102,877 (7.06%) in comparison with the prior year. Expenses associated with maintenance of the storm sewer system are the majority of the increase in expenses from the prior year.

General Fund Budgetary Highlights

During the fiscal year, the General Fund's original budget was amended from an original budget expenditure total (including transfers) of \$40,960,763 to a final budget of \$48,284,806, an increase of \$7,324,043. These increases to the budget can be briefly summarized as follows:

- An increase of \$135,336 in general government activities, primarily in the executive department related to health care expenditures.
- An increase of \$840,812 in the police and fire departments due to various public safety grants received during the year.
- An increase of \$602,507 for highways and public improvements. The City had a need to fund various miscellaneous projects.
- An increase of \$360,388 for parks and recreation.
- An increase of \$4,150,000 in transfers out to provide for critical current and future capital improvement needs such as various road improvement projects.

Capital Assets and Debt Administration

Capital assets. The City's investment in capital assets for its governmental and business-type activities as of June 30, 2006, amounts to \$203,748,103 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements other than buildings, machinery and equipment (including vehicles), infrastructure, and construction in progress.

Major capital asset events during the current fiscal year include the following:

- Public safety purchased several new vehicles and replaced a number of aging police vehicles totaling \$464,980.
- Work on the new Public Works building, public library remodel, and fire station #1 remodel added approximately \$4,265,000 to construction in process.

City of Orem
Management's Discussion and Analysis
June 30, 2006

- The missing sidewalks project added approximately \$1,950,000 to construction in process.
- Various road projects completed or added to construction in process were approximately \$3,800,000.
- Work on a new 20 million gallon water tank added \$3,432,000 to construction in process for the year.
- Work on two new detention ponds/parks totaled approximately \$1,050,000.
- Remodel work on the Orem Fitness Center added approximately \$675,000 to construction in process.
- Various water, sewer, and storm sewer line improvements totaled approximately \$3,650,000.

Additional information on the City's capital assets can be found in the footnotes to this financial report.

Long-term debt. At the end on the current year, the City had total bonded debt outstanding of \$64,483,757. Of this amount, \$21,995,000 comprises debt backed by the full faith and credit of the government and \$42,488,757 is debt that is secured solely by specific revenue sources (i.e., revenue bonds).

City of Orem's Outstanding Debt
General Obligation and Revenue Bonds

	Governmental activities		Business-type activities		Total	
	2006	2005	2006	2005	2006	2005
General obligation bonds	\$ 21,995,000	\$ 17,225,000	-	-	\$ 21,995,000	\$ 17,225,000
Revenue bonds	23,175,000	26,612,000	19,313,757	19,488,000	42,488,757	46,100,000

The City's total bonded debt increased by \$1,158,757 (1.83%) during the current fiscal year. During the year, \$5,515,000 in General Obligation Road Improvement Bonds were issued.

City of Orem
Management's Discussion and Analysis
June 30, 2006

The City of Orem maintains a "AA" rating from Fitch Ratings and from Standard & Poor's.

State statutes limit the amount of general obligation debt a governmental entity may issue to 4% of its total taxable value. The current limitations for the City are \$197,608,390, which is significantly in excess of the City's outstanding general obligation debt. In addition, state statutes allow for an additional 4% to be used for water, sewer, or electrical projects thus resulting in a debt limit of 8% of total taxable value. The current limitation for these water, sewer, or electrical projects is \$395,216,780, which again significantly exceeds the outstanding business-type activity debt.

Additional information on the City's long-term debt can be found in the footnotes to this financial report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for Orem at June 30, 2006 was 3.1%. This compares with a Utah County (of which Orem is the second largest city) unemployment rate of 3.1%, a state unemployment rate of 3.3% and a national rate of 4.6%. This compares with previous year's rates of 4.7%, 4.7%, 4.9%, and 5.0% respectively. (Source: U.S. Bureau of Labor Statistics).
- The General Fund budget for the fiscal year ending June 30, 2007 reflects a decrease of 5.57% in revenues, excluding appropriations of surplus, compared to the final fiscal year ending June 30, 2006. This decrease in revenues is due primarily to decreases in grants and special assessments. Budgeted expenditures increased by 5.25% over the final fiscal year ending June 30, 2006 expenditures.
- Economic trends in the region compare favorably to national indices.

All of these factors were considered in preparing the City's budget for the 2007 fiscal year.

Request For Information

This financial report is designed to provide a general overview of the City of Orem's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: City of Orem, Finance Director, 56 North State Street, Orem, UT 84057.

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental funds are not financial resources.

Other long-term assets are not available to pay for current-period expenditures.

Certain revenue is deferred in governmental funds but not in the statement of net assets because it

qualifies for recognition under the economic resources measurement focus

Internal service funds are used by management to charge the cost of fleet management, warehousing and self-insurance costs. The current assets and liabilities of internal service funds are included in governmental activities in the statement of net assets.

Long-term liabilities, including bonds payable and compensated absences, are not due and payable in the current period.

Interest payable on long-term obligations does not require current financial resources and is not reported in the governmental funds.

Net assets of governmental activities

City of Orem
Reconciliation of The Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
To The Statement of Activities
For The Year Ended June 30, 2006

Amounts reported for Governmental activities in the Statement of Activities are different because:

Net Change in Fund Balances - Total Governmental Funds \$ 1,802,593

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital Asset Purchases Capitalized	\$ 12,971,979	
Depreciation Expense	<u>(4,815,835)</u>	8,156,144

The issuance of long-term debt provides current financial resources to governmental funds, while the payment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.

Issuance of Long-term Debt recorded as a long-term liability	\$ (8,670,990)	
Principal Payments recorded as a reduction of the long-term liability	<u>4,432,370</u>	(4,238,620)

Governmental funds report the effect of bond issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

Bond Issuance Costs Capitalized	\$ 106,684	
Bond Issuance Costs Capitalized - Refundings	-	
Bond (Premiums) Discounts	(138,450)	
Amortization of Bond Issuance Costs	(33,302)	
Amortization of Bond Issuance Costs - Refundings	(15,524)	
Amortization of Bond Premiums (Discounts)	<u>12,029</u>	(68,564)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore, are not reported as expenditures in the governmental funds.

Compensated Absences	\$ (3,294)	
Interest Expense	<u>43,457</u>	40,163

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	1,458,134
--	-----------

Internal service funds are used by management to charge the costs of fleet management and self-insurance costs to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.

91,009

Change in Net Assets of Governmental Activities	<u><u>\$ 7,240,859</u></u>
---	----------------------------

City of Orem
Notes to the Financial Statements
June 30, 2006

1. Summary of significant accounting policies

A. Reporting Entity

The basic financial statements of the City of Orem (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing accounting and financial reporting principles.

Financial reporting is based upon all GASB pronouncements, as well as the FASB Statements and Interpretations, APB Opinions and Accounting Research Bulletins that were issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements. FASB pronouncements issued after November 30, 1989 are not followed in the preparation of the accompanying financial statements.

The City of Orem was incorporated in 1919 and covers approximately 18.25 square miles. The City operates under a Council-Manager form of government. As required by GAAP, the City and its component units (entities for which the City is considered to be financially accountable) presents this Comprehensive Annual Financial Report. The City is considered to be financially accountable for an organization if the City appoints a voting majority of that organization or there is a potential for that organization to provide specific financial benefits to or impose specific financial burdens on the City. The City is also considered to be financially accountable for an organization if that organization is fiscally dependent (i.e., it is unable to adopt its budget, levy taxes, set rates or charges, or issue bonded debt without approval from the City). The component units discussed below are included as part of the City's reporting entity as blended component units.

The Redevelopment Agency of the City of Orem (RDA) was established to prepare and carry out plans to improve, rehabilitate and redevelop blighted areas within the City. The RDA is governed by a board of trustees composed of the Mayor and members of the City Council. Although it is a legally separate entity from the City, the RDA is reported as if it were part of the primary government because of the City's ability to impose its will upon the operations of the RDA. The RDA is included in these financial statements as the Redevelopment Agency Special Revenue Fund. Separate financial statements are not issued for the RDA.

The Municipal Building Authority of the City of Orem (MBA) was established to finance and construct municipal buildings that are then leased to the City. A seven-member board of trustees composed of the Mayor and the City Council governs the MBA. Although it is a legally separate entity from the

City of Orem
Notes to the Financial Statements
June 30, 2006

1. Summary of significant accounting policies (continued)

A. Reporting Entity (continued)

City, the MBA is reported as if it were part of the primary government because of the City's ability to impose its will upon the operations of the MBA. The MBA is included in these financial statements as the Municipal Building Authority Debt Service and Capital Projects Funds. Separate financial statements are not issued for the MBA.

The Commission for Economic Development in Orem (CEDO) was included with the reporting entity as a discretely presented component unit, created to encourage the economic growth and development of the City, primarily through its function as the administrator of the City's revolving business loan program. Although it is primarily financed by the City and, therefore, fiscally dependent on the City, CEDO is a legally separate entity with an independently appointed board, which appointments are approved by the City Council, (a City Council member is always one of the board members) which provides services both to the City and to the citizens of the City directly. As exclusion from the financial statements of the City would be misleading, CEDO is included as a discretely presented component unit consisting of a single governmental type fund in the Basic Financial Statements. Separate financial statements are not issued for CEDO.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the City and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those which are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

City of Orem
Notes to the Financial Statements
June 30, 2006

1. Summary of significant accounting policies (continued)

C. Measurement focus, basis of accounting and financial statement presentation

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The use of financial resources to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, rather than as an other financing source. Amounts paid to reduce long-term debt of the City are reported as a reduction of the related liability, rather than expenses in the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter (within sixty days) to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt-service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Sales taxes, use taxes, franchise taxes, and earned but unreimbursed state and federal grants associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Property taxes are measurable as of the date levied (assessed) and are recognized as revenues when they become available. Available means when due, or past due, and received within the current period or collected soon enough thereafter to be used to pay liabilities of the current period. All other revenues are considered to be measurable and available only when the City receives cash.

City of Orem
Notes to the Financial Statements
June 30, 2006

1. Summary of significant accounting policies (continued)

C. Measurement focus, basis of accounting and financial statement presentation (continued)

The City reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except for those required to be accounted for in another fund.

The *Capital Projects Fund* is used to account for the acquisition or construction of major capital facilities of the City (other than those financed by proprietary funds).

The *Road Bonds Capital Projects Fund* is used to account for the improvement, rehabilitation, or construction of new roads throughout the City.

The City reports the following major proprietary funds:

The *Water Fund* accounts for the activities of the City's water production, treatment and distribution operations.

The *Water Reclamation Fund* accounts for the operation and maintenance of the City's sewer operations.

The *Storm Sewer Fund* accounts for the operation and maintenance of the City's storm sewer operations.

Additionally, the City reports the following fund types:

Internal Service Funds are to account for the self-insurance activities of the various funds throughout the City, to account for the costs of operating and maintaining vehicles and equipment owned by the City, and to account for the central purchasing and warehousing for the City.

Fiduciary Funds are maintained for the activities of the following:

- The *Senior Citizens' Fund*, which accounts for the activities of a senior citizen organization in the City.
- The *New Friends of the Library Fund*, which accounts for the activities of a non-profit organization involved with the City's Library.
- The *Orem Foundation Trust Fund*, which accounts for tax deductible donations for the City's Library.

Each of these fiduciary funds are separate legal organizations, they approve and modify their own budgets without oversight from the City, they have their own governing board and appoint its members, and financial decisions are made by the governing body without approval from the City.

City of Orem
Notes to the Financial Statements
June 30, 2006

1. Summary of significant accounting policies (continued)

C. Measurement focus, basis of accounting and financial statement presentation (continued)

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments to the General Fund by various enterprise funds for the providing of administrative and billing services for such funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of all enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Assets, liabilities, and net assets or equity

1. Cash and cash equivalents

Cash includes cash on hand, demand deposits with banks and other financial institutions, and deposits in other types of accounts or cash management pools that have the general characteristics of demand deposit accounts. City policy allows for the investment of funds in the following (in compliance with the State of Utah's Money Management Act):

- Time certificates of deposit with federally insured depositories.
- Investment in the Utah Public Treasurer's Investment Pool.
- Open-end managed money market mutual funds.
- Qualified repurchase agreements with qualified depositories, certified dealers, or certified depositories.
- Other investments allowed by the State of Utah's Money Management Act.

Investments are reported at fair value. The State Treasurer's Investment Fund operates in accordance with state laws and regulations. The reported value of the Fund is the same as the fair value of the Fund shares.

City of Orem
Notes to the Financial Statements
June 30, 2006

1. Summary of significant accounting policies (continued)

D. Assets, liabilities, and net assets or equity (continued)

1. Cash and cash equivalents (continued)

Cash equivalents are defined as short-term highly liquid investments that are both readily convertible to known amounts of cash and so near maturity that they present insignificant risk of changes in value because of changes in interest rates. Investments with maturities of three months or less when purchased meet this definition.

2. Receivables and payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to or due from other funds". In the Water, Water Reclamation, and Solid Waste funds, the City records utility revenues billed to customers when meters are read on a monthly basis. Unbilled service accounts receivable at June 30, 2006 do not represent a material amount and, therefore, have not been accrued.

3. Inventories and prepaid items

Inventories of materials and supplies in the proprietary funds, consisting principally of materials used in the repair of the transmission, distribution, collection and treatment systems, are valued at cost and accounted for on a first-in, first-out basis (FIFO).

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City defines capital assets as assets with an individual cost of more than \$5,000 and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

City of Orem
Notes to the Financial Statements
June 30, 2006

1. Summary of significant accounting policies (continued)

D. Assets, liabilities, and net assets or equity (continued)

4. Capital assets (continued)

Property, plant, and equipment are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Infrastructure	33 - 50
Buildings and systems	25 - 33 $\frac{1}{3}$
Machinery and equipment	5 - 20
Vehicles	5 - 20
Furniture and equipment	5 - 20
Improvements other than buildings	5 - 10

5. Compensated absences

For governmental funds amounts of vested or accumulated vacation leave and comp time that are not expected to be liquidated with expendable available financial resources are reported as liabilities in the government-wide statement of net assets and as expenses in the government-wide statement of activities. No expenditures are reported for these amounts in the fund financial statements. Vested or accumulated vacation leave and comp time of proprietary funds is recorded as an expense and a liability of those funds as the benefits accrue to the employees and are thus recorded in both the government-wide financial statements and the individual fund financial statements. Employees are limited to two years of accumulated vacation leave. Sick pay amounts are charged to expenditures when incurred. Employees may accumulate sick leave without limitation. City employees earn twelve days of sick leave per year.

6. Long-term obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums, discounts, and issuance costs are deferred and amortized over the life of the applicable debt. In the fund financial statements, governmental fund types recognize bond

City of Orem
Notes to the Financial Statements
June 30, 2006

1. Summary of significant accounting policies (continued)

D. Assets, liabilities, and net assets or equity (continued)

6. Long-term obligations (continued)

premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

7. Restricted assets

Restricted assets are comprised of cash restricted for future payments of principal and interest on debt service as well as unexpended portions of bonds issued for capital construction purposes.

8. Fund equity reserves

Fund balance

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally segregated for a specific purpose.

Restricted net assets

In the government-wide financial statements as well as the proprietary fund financial statements, restricted net assets are legally restricted by outside parties for a specific purpose.

9. Contributions from developers

Contributions from developers in the proprietary fund financial statements arise from outside contributions of capital assets, or from grants or outside contributions of resources restricted to capital acquisition and construction.

City of Orem
Notes to the Financial Statements
June 30, 2006

1. Summary of significant accounting policies (continued)

E. Estimates and assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

2. Reconciliation of government-wide and fund financial statements

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes reconciliation between *total governmental fund balances* and *net assets of governmental activities* as reported in the government-wide statement of net assets. This difference primarily results from the long-term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheets.

Capital related items

When capital assets (property, plant and equipment) that are to be used in governmental activities are purchased or constructed, the cost of those assets are reported as expenditures in governmental funds. However, the statement of net assets includes those capital assets among the assets of the City as a whole.

Cost of Capital Assets	\$	214,387,315
Accumulated Depreciation		(66,662,957)
Total difference	\$	<u>147,724,358</u>

Long-term debt transactions

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities in the governmental fund financials. All liabilities (both current and long-term) are reported in the statement of net assets.

City of Orem
Notes to the Financial Statements
June 30, 2006

2. Reconciliation of government-wide and fund financial statements (continued)

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets (continued)

Long-term liability balances at June 30, 2006 were as follows:

General obligation bonds	\$ 21,995,000
Sales tax revenue bonds	10,810,000
Municipal building authority bonds	9,170,000
Special improvement district bonds	3,195,000
Notes payable	3,597,449
Capital leases	243,896
Less: Internal Service Funds - Current Portion	(5,486)
Bond premiums deferred	314,218
Bond issuance costs deferred - refunding	(161,714)
Compensated absences	1,395,338
Less: Internal Service Funds - Current Portion	(45,211)
Total difference	<u>\$ 50,508,490</u>

B. Explanation of differences between governmental fund operating statements and the statement of net activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balance - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One of these differences is explained here in greater detail.

The second element of that reconciliation states that "the issuance of long-term debt provides current financial resources to governmental funds, while the payment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets." The details of this difference are as follows:

City of Orem
Notes to the Financial Statements
June 30, 2006

2. Reconciliation of government-wide and fund financial statements (continued)

B. Explanation of differences between governmental fund operating statements and the statement of net activities (continued)

Debt issued or incurred:	
Issuance of general obligation bonds	\$ (5,515,000)
Issuance of interim warrants	(1,650,183)
Section 108 HUD loan	(1,319,930)
Capital lease financing	(185,877)
Subtotal	<u>(8,670,990)</u>
Principal payments:	
Special improvement district bonds	1,540,000
Municipal building authority bonds	970,000
General obligation bonds	745,000
Sales tax revenue bonds	475,000
Excise tax revenue bonds	452,000

Capital leases	112,590
Subtotal	<u>4,432,370</u>
Net adjustment to increase <i>net changes in fund balance</i> - total governmental funds to arrive at <i>changes in net assets of governmental activities</i>	<u><u>\$ (4,238,620)</u></u>

3. Stewardship, compliance and accountability

A. Budgetary Information

Prior to the first regularly scheduled meeting of the City Council in May, the City Manager and appointed Budget Officer, submits to the City Council a proposed operating budget for the fiscal year commencing the following July 1st. The operating budget includes proposed expenditures and the proposed sources of revenues.

Between May 1st and June 22nd, the City Council reviews and adjusts the proposed budget. On or before June 22nd, a public hearing is held and the budget is legally adopted through passage of a resolution, unless a property tax increase is proposed. If a property tax increase is proposed, a hearing must be held on or before August 17th, which does not conflict with other taxing entities that have proposed a property tax increase. At this time the final balanced budget is adopted.

City of Orem
Notes to the Financial Statements
June 30, 2006

3. Stewardship, compliance and accountability (continued)

A. Budgetary Information (continued)

The City Manager, in conjunction with the Budget Officer and the appropriate department head, has the budget authority to transfer budget appropriations within and between any divisions of any budgetary fund.

An individual department, such as Public Works, is composed of several divisions, e.g., water, water reclamation and storm sewer. These divisions may be located in many different funds. Budget transfers may be made between divisions in a fund even if the divisions involved are not in the same department.

The City Council (administrators of the legal level of control), by resolution, have the authority to transfer budget appropriations between individual budgetary funds. A public hearing must be held to increase the total appropriations of any one governmental fund type; however, after the original public hearing, operating and capital budgets of proprietary fund types may be increased by resolution without an additional hearing.

Annual budgets for the General Fund, all Debt Service Funds and Capital Projects Funds were legally adopted by the City and are prepared on the modified-accrual method of accounting. Although Utah State law requires the initial preparation of budgets for all City funds (both governmental and proprietary), it only requires the reporting of actual versus such budgets for governmental funds.

Tax revenues

Property taxes are collected by the County Treasurer and remitted to the City in two to three installments in November, December, and a final settlement in the first quarter of the calendar year. Taxes are levied and are due and payable on November 1st and delinquent after November 30th of each year at which time they become liens if not paid. An accrual of uncollected current and prior year's property taxes beyond those received within 60 days after the fiscal year end has not been made, as the amounts are not deemed to be material.

Sales taxes are collected by the Utah State Tax Commission and remitted to the City monthly. An accrual has been made for all taxes received by the State for the period ended June 30th and thus due and payable to the City.

Franchise taxes are charged to various utility companies doing business within the City including telephone, cable television, gas utility, and electric utility companies. The fees are remitted on a monthly, quarterly, or annual basis. Again an accrual has been made for all fees due and payable to the City at June 30th.

City of Orem
Notes to the Financial Statements
June 30, 2006

4. Detailed notes for all funds

A. Deposits and investments

The City's deposits and investing are governed by the Utah Money Management Act (*Utah Code*, Title 51, Chapter 7) and rules of the State of Utah Money Management Council.

Custodial Credit Risk – Deposits

The custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be recovered. The Money Management Act requires deposits be in a qualified depository. The Act defines a qualified depository as any financial institution whose deposits are insured by an agency of the federal government and which has been certified by the State Commissioner of Financial Institutions as meeting the requirements of the Act and adhering to the rules of the Utah Money Management Council.

The deposits in the bank in excess of the insured amount are uninsured and uncollateralized. Deposits are not collateralized nor are they required to be by state statute. As of June 30, 2006, \$2,115,801 of the City's bank balance of \$2,295,506 is exposed to custodial credit risk as uninsured and uncollateralized. The carrying amount of the deposits at June 30, 2006 is \$1,417,228.

Investments

The Money Management Act defines the types of securities authorized as appropriate investments and the conditions for making investment transactions. Investment transactions may be conducted only through qualified depositories, certified dealers, or directly with issuers of investment securities.

The Act authorizes investments in both negotiable and nonnegotiable deposits of qualified depositories and permitted negotiable depositories; repurchase and reverse repurchase agreements; commercial paper that is classified as "first tier" by two nationally recognized statistical rating organizations, one of which must be Moody's Investors Services or Standard & Poor's; bankers' acceptances; obligations of the United States Treasury including bills, notes, and bonds; obligations, other than mortgage derivative products, issued by U.S. government sponsored enterprises (U.S. Agencies) such as the Federal Home Loan Bank System, Federal Home Loan Mortgage Corporation (Freddie Mac), Federal National Mortgage Association (Fannie Mae), and Student Loan Marketing Association (Sallie Mae); bonds, notes, and other evidence of indebtedness of political subdivisions of the State; fixed

City of Orem
Notes to the Financial Statements

Interest Rate Risk - Investments

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment.

The City's policy for managing interest rate risk is to comply with the State's Money Management Act. Section 51-7-11 of the Act requires that the remaining term to maturity of investments may not exceed the period of availability of the funds to be invested. The Act further limits the remaining term to maturity on all investments in commercial paper, bankers' acceptances, fixed rate negotiable deposits, and fixed rate corporate obligations to 270-365 days or less. In addition, variable rate negotiable deposits and variable rate securities may not have a remaining term to final maturity exceeding two years.

Credit Risk of Debt Securities

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City follows the Money Management Act as previously discussed as its policy for reducing exposure to investment credit risk.

City of Orem
Notes to the Financial Statements
June 30, 2006

4. Detailed notes for all funds (continued)

A. Deposits and investments (continued)

Credit Risk of Debt Securities (continued)

The City's debt investments ratings at June 30, 2006 are presented below:

Rated Debt Investments	Fair Value	Quality Ratings			
		AAA	AA	A	Unrated
<u>Debt Securities</u>					
Utah Public Treasurer's Investment Fund	\$ 48,205,966	\$ -	\$ -	\$ -	\$ 48,205,966
U.S. Treasuries	825,920	-	-	-	825,920
Total Debt Securities	<u>\$ 49,031,886</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 49,031,886</u>

Custodial Credit Risk – Investments

Custodial credit risk for investments is the risk that, in the event of a failure of the counter party, the City will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The City does not have a formal policy for custodial credit risk.

Most of the City's investments at June 30, 2006 were with the Utah Public Treasurer's Investment Fund and therefore, are not categorized as to custodial credit risk. Additional information regarding the Utah Public Treasurer's Investment Fund is available in Note B. The investment in U.S. Treasuries represent amounts held in various bond trust funds.

Concentration of Credit Risk – Investments

Concentration of credit risk is the risk of a loss attributed to the magnitude of a government's investment in a single issuer.

The City's policy for reducing this risk of loss is to comply with the Rules of the Money Management Council. Rule 17 of the Money Management Council limits investments in a single issuer of commercial paper and corporate obligations to between 5 and 10 percent depending upon the total dollar amount held in the portfolio. The Money Management Council limitations do not apply to securities issued by the U.S. government and its agencies.

Most of the City's investments at June 30, 2006 were with the Utah Public Treasurer's Investment Fund and therefore, are not categorized as to concentration of credit risk. Additional information regarding the Utah Public Treasurer's Investment Fund is available in Note B. The investment in U.S. Treasuries represent amounts held in various bond trust funds and represent 1.68% of total investments.

City of Orem
Notes to the Financial Statements

4. Detailed notes for all funds (continued)

B. External investment pool

The City invests in the Public Treasurer's Investment Fund (PTIF) which is an external investment pool administered by the Utah State Public Treasurer. State agencies, municipalities, counties, and local governments within the State of Utah are allowed to invest in the PTIF. There is no required participation and no minimum balance or minimum/maximum transaction requirements.

The PTIF is not registered with the SEC as an investment company. The PTIF is authorized and regulated by the Money Management Act, Chapter 51-7, Utah Code Annotated, 1953, as amended. The Act establishes the Money Management Council which oversees the activities of the State Treasurer and the PTIF. The Act details the investments that are authorized which are high-grade securities and, therefore, there is very little credit risk except in the most unusual and unforeseen circumstances.

Deposits in the PTIF are not insured or otherwise guaranteed by the State of Utah and participants share proportionally in any realized gains or losses on investments.

The PTIF allocates income and issues statements on a monthly basis. The PTIF operates and reports to participants on an amortized cost basis. The participants' balance is their investment deposited in the PTIF plus their share of income, gains and losses, net of administration fees, which are allocated to each participant on the ratio of each participant's share to the total funds in the PTIF.

Twice a year, at June 30 and December 31, the investments are valued at fair value to enable participants to adjust their investments in this pool at fair value. The Bank of New York and the State of Utah separately determine each security's fair value in accordance with GASB 31 (i.e. for almost all pool investments the quoted market price as of June 30, 2006) and then compare those values to come up with an agreed upon fair value of the securities.

As of June 30, 2006, the City had \$48,205,966 invested in the PTIF which had a fair value of \$48,190,540 for an unrealized loss of \$15,426. Due to the insignificance of this amount in relation to the funds affected by the unrealized loss, the fair value of investments in this external investment pool is deemed to be the amortized cost of the investment.

City of Orem
Notes to the Financial Statements
June 30, 2006

4. Detailed notes for all funds (continued)

B. External investment pool (continued)

The table below shows statistical information about the investment pool:

Investment Type	Investment Percentage
Corporate bonds and notes	65.46%
Money market accounts and certificates of deposit	4.82%
U.S. government securities	29.72%
Total	<u>100.00%</u>

C. Customer Deposits

Enterprise fund deposits are deposits the City requires from residential or business customers who are receiving a utility connection but have a bankruptcy on record. The deposit is refundable after 2 years of satisfactory payment history.

D. Loans receivable - CDBG and EDA loans

The City uses monies from the Community Development Block Grant (CDBG) program to create housing rehabilitation and business redevelopment loans. Additional funds from the Economic Development Agency (EDA) and the Utah Revolving Loan Fund are used to supplement the business redevelopment loan program. The principal balance of the loans at June 30, 2006, as summarized below, has been shown in the government-wide statement of net assets as follows:

Housing rehabilitation loans	<u>\$ 604,052</u>
Total	<u>\$ 604,052</u>

E. Receivables

Receivables as of year-end for the government's individual major funds and nonmajor, internal service, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

H. Jointly governed organizations

The City in conjunction with other governmental entities, jointly governs two organizations. Each organization's board is comprised of one member from each participating entity. Except for customary fees, no participant has any obligations, entitlement or residual interest. A brief description of the City's relationship with each organization follows:

Utah Risk Management Mutual Association (URMMA) - The City provides for its general liability risks and worker's compensation through a joint protection agreement with URMMA. During the year ended June 30, 2006, the City paid premiums of approximately \$228,000 to URMMA.

Utah County Solid Waste Special Service District (UCSWSSD) - The City disposes of its solid waste through an agreement with UCSWSSD, which operated a solid waste transfer station. During the year ended June 30, 2006, the City paid solid waste tipping fees of approximately \$960,000 to UCSWSSD.

Utah Telecommunication Open Infrastructure Agency (UTOPIA) - UTOPIA was formed under the Utah Interlocal Cooperation Act by its 18 founding cities, of which, the City of Orem is a member. This agency has the assignment to design, finance, build, operate and maintain a fiber-to-home and fiber-to-business fiber optic communication network. UTOPIA will build the infrastructure but private companies will deliver the services over the network. During the year ended June 30, 2006, the City paid no fees to UTOPIA. See footnote 5.B. (Other information, contingent liabilities) for additional information.

City of Orem
Notes to the Financial Statements
June 30, 2006

4. Detailed notes for all funds (continued)

I. Capital Leases

The City has entered into certain lease agreements under which the related equipment will become the property of the City when the terms of the lease agreement are met.

All City lease contracts contain a fiscal non-funding clause that allows the City Council the option of terminating the lease agreement at the end of any fiscal year. In the opinion of City management, the likelihood of this clause being exercised is remote.

The following is a schedule, by year, of future minimum lease payments of all capital leases as well as the present value of the net minimum lease payments as of June 30, 2006:

Year ending June 30,	Governmental Activities	Business-type Activities
2007	\$ 133,224	\$ 18,752
2008	68,282	18,752
2009	57,531	18,752
2010	4,793	1,563
Thereafter		
Total minimum lease payments	263,830	57,819
Less: Amount representing interest	(19,934)	(4,990)
Present value of net minimum lease payments	<u>\$ 243,896</u>	<u>\$ 52,829</u>

Equipment and related accumulated depreciation under capital leases is as follows:

	Governmental Activities	Business-type Activities
Cost of equipment	\$ 635,207	\$ 52,829
Accumulated Depreciation	(385,136)	(1,887)
Difference	<u>\$ 250,071</u>	<u>\$ 50,942</u>

City of Orem
Notes to the Financial Statements
June 30, 2006

4. Detailed notes for all funds (continued)

J. Long-term debt

General obligation bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital projects. All general obligation bonds issued are for governmental activities. The original amount of general obligation bonds issued in prior years was \$18,150,000. During 2006, general obligation bonds totaling \$5,515,000 were issued.

General obligation bonds are direct obligations and pledge the full faith and credit of the government.

General obligation bonds currently outstanding at June 30, 2006 are as follows:

	<u>Interest Rates</u>	<u>Amount</u>
Governmental activities:		
1997 Road Construction	5.25% to 5.40%	\$ 275,000
1998 Road Construction	5.25% to 5.40%	3,535,000
2004 Road Construction-Refunding	3.00% to 4.00%	3,940,000
2005 Road Construction	3.50% to 5.00%	8,730,000
2006 Road Construction	3.63% to 5.00%	5,515,000
Total		<u>\$ 21,995,000</u>

Annual debt service requirements to maturity for the above reflected general obligation debt is as follows:

Year Ended June 30,	Principal	Interest	Totals
2007	\$ 970,000	\$ 965,626	\$ 1,935,626
2008	1,065,000	873,408	1,938,408
2009	1,095,000	834,274	1,929,274
2010	1,150,000	793,053	1,943,053
2011	1,200,000	749,039	1,949,039
2012-2016	6,805,000	2,958,173	9,763,173
2017-2021	5,640,000	1,532,212	7,172,212
2022-2026	4,070,000	415,897	4,485,897
Totals	<u>\$ 21,995,000</u>	<u>\$ 9,121,682</u>	<u>\$ 31,116,682</u>

City of Orem
Notes to the Financial Statements
June 30, 2006

4. Detailed notes for all funds (continued)

J. Long-term debt (continued)

Prior year advance refundings

In 2005, the City issued \$3,975,000 of general obligation refunding bonds to provide funds that were placed in a trust for the purpose of generating resources to pay the remaining outstanding principal balance at December 1, 2006 of the Series 1997 general obligation bonds. The amount to be paid at December 1, 2006 is \$3,790,000. As a result, this amount of Series 1997 general obligation bonds are considered defeased and the liability has been removed from the governmental activities column of the statement of net assets. The reacquisition price exceeded the net carrying amount of the old debt by \$185,000. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt. The advance refunding was undertaken to reduce total debt service payments over the next 11 years by \$269,889 and resulted in an economic gain of \$211,112.

Revenue bonds

The City has the following revenue bonds outstanding at June 30, 2006:

Water Quality Revenue Bonds

In April of 1994, the City entered into an agreement to issue revenue bonds through the Utah State Department of Water Quality of up to \$3,500,000. As of June 30, 1997, the City had issued \$3,100,000 of such bonds. During the fiscal year ended June 30, 1998 the City issued the remaining \$400,000. The proceeds of the bonds were used to construct facilities at the Water Reclamation Plant. The terms of the bond contract require principal and interest payable annually on February 1 of each year commencing February 1, 1995 through February 2015. Payments on the bonds are paid from sewer charges to customers. The interest rate is fixed at 3.5%.

Lease Revenue Bonds - Series 2000

In September of 2000, the City issued lease revenue bonds of \$7,985,000 through private placement for the completion of a street lighting project. Payments on the bonds are paid from utility charges to customers. The terms of the bond contract require principal payable annually commencing March 15, 2002 with interest payable semi-annually on September 15 and March 15 of each year commencing March 15, 2001 through March 2018. The interest rate varies between 4.45% and 5.5%.

Revenue bonds (continued)

Refunding Lease Revenue Bonds – Series 2001

In October of 2001, the City issued lease revenue refunding bonds of \$5,345,000 through private placement that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of related defeased liabilities. The terms of the bond contract require principal payable annually commencing June 15, 2002 with interest payable semi-annually on June 15 and December 15 through June 2011. The interest rate varies between 2.50% and 4.50%.

Canyon River SID Bonds – Series 2001

In October of 2001, the City issued Canyon River special improvement district bonds of \$3,680,000 through private placement for the improvement of property. Payments on the bonds are paid from assessments levied against the property. In the event a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the City must provide resources to cover the deficiency until other resources are received. The terms of the bond contract require principal payable annually and interest payable semi-annually commencing March 2002 through June 2016. The interest rate varies between 4.59% and 5.00%.

Sales Tax Revenue Bonds – Series 2002

In February of 2002, the City issued sales tax lease revenue bonds of \$12,175,000 through private placement for completion of recreation projects. Payments on the bonds are paid from sales tax. The terms of the bond contract require semi-annual payments through April 2023. The terms of the bond contract require principal payable annually commencing April 15, 2003 with interest payable semi-annually commencing October 15, 2002 and April 15, 2003, respectively, through April 2023. The interest rate varies between 3.00% and 5.50%.

Water and Storm Sewer Revenue Bonds – Series 2005 A

In March of 2005, the City issued revenue bonds of \$17,390,000 through private placement for completion of improvements to the city's water and storm sewer system. The terms of the bond contract require principal payable annually commencing July 15, 2006 with interest payable semi-annually commencing January 15, 2006 through July 2025. The interest rate varies between 3.50% and 5.25%.

Water and Storm Sewer Revenue Bonds – Series 2005 B

In March of 2005, the City entered into an agreement to issue revenue bonds through the Utah State Department of Water Quality of up to \$3,000,000. As of June 30, 2006, the City had issued \$50,000 of such bonds. The proceeds of the bonds are to be used for the completion of improvements to the city's water and storm sewer system. The terms of the bond contract require principal payable annually commencing July 15, 2006 with interest payable semi-annually commencing January 15, 2006 through July 2025. The interest rate is fixed at 1.48%.

Revenue bonds currently outstanding at June 30, 2006 are as follows:

<u>Purpose:</u>	<u>Interest Rates</u>	<u>Amount</u>
Water and storm sewer	1.48%-5.25%	\$ 17,440,000
Recreation projects	3.00%-5.50%	10,810,000
Street lighting	4.45%-5.50%	6,230,000
Property improvement	5.00%	3,195,000
Bond refunding	2.50%-4.50%	2,940,000
Wastewater treatment	3.50%	1,873,757
Total		<u>\$ 42,488,757</u>

Annual debt service requirements to maturity for the above reflected revenue bond debt is as follows:

<u>Year Ended</u> <u>June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Totals</u>
2007	\$ 2,541,000	\$ 1,954,513	\$ 4,495,513

Compensated absences

City employees earn vacation based upon the employee's years of service. Employees, upon termination, may be paid up to forty-two days of earned vacation. Amounts of vacation vested and not paid have been accrued as a liability at June 30, 2006.

Of total compensated absences, \$94,954 has been recorded in the Self - insurance Internal Service Fund. This liability relates to an old City benefit policy. On June 30, 1981, employees had their accumulated hours of vacation and sick leave frozen in a vacation and sick leave bank. Upon separation from service for any cause, an employee shall be paid 100% of their vacation bank and 50% of their sick leave bank. The total liability will not increase, but only decrease as the related employees retire or separate from service.

City of Orem
Notes to the Financial Statements
June 30, 2006

5. Other information

A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City maintains a Self-insurance Fund to account for and finance its uninsured risks of loss. Under this program, the Self-insurance Fund provides coverage for up to a maximum of \$400,000 for each worker's compensation claim, \$15,000 for general liability, and \$10,000 for property damage. The City is insured through the Utah Risk Management Mutual Association (URMMA) for liability and claims in excess of coverage provided by the Self-insurance Fund for liability and property claims. While URMMA pays for any liability and property claims exceeding the deductible amount, these claims are repaid by the City through a recapture program. Thus, each year the City pays its annual premium plus a recapture component. The City is insured by Midwest Employers' Company for worker's compensation claims in excess of coverage provided by the Self-insurance Fund. Settled claims have not exceeded such coverage in any of the past three fiscal years.

All Funds of the City participate in the program and make payments to the Self-insurance Fund based on estimates of the amounts needed to pay prior and current year claims. Estimates of incurred but not reported claims, which are reported but not settled do not represent a material amount and, therefore, have not been accrued at year end. The activity in worker's compensation claims (all retained risk) for the years ended June 30, 2005 and 2006 is as follows:

Year ended June 30,	2005	2006
Claim liability, beginning of year	\$ -	\$ -
Claims incurred during the year	246,426	134,401
Changes in estimates of claims of prior periods	-	-
Payments on claims during the year	(246,426)	(134,401)
Other	-	-
Claim liability, end of year	<u>\$ -</u>	<u>\$ -</u>

B. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

City of Orem
Notes to the Financial Statements
June 30, 2006

5. Other information (continued)

B. Contingent Liabilities (continued)

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's counsel the resolution of these matters will not have a material adverse effect on the financial condition of the City.

The City is a member of Utah Telecommunication Open Infrastructure Agency (UTOPIA), an interlocal, nonprofit agency. UTOPIA was formed under the Utah Interlocal Cooperation Act by its 18 founding cities, of which the City is one of the eleven pledged members. This agency has the assignment to design, finance, build, operate and maintain a fiber-to-home and fiber-to-business fiber optic communication network. UTOPIA will build the infrastructure but private companies will deliver the services over the network. UTOPIA acts as the wholesaler, not the retailer. In July 2004, UTOPIA issued an \$85,000,000 revenue bond. The first four years of bond payments will be made from a debt reserve fund. From that point on, until the bonds are due (July 2026), net revenues from the communication network will reimburse the debt service fund for payments on the bond debt. To the extent that there are insufficient net revenues to pay the debt service, the eleven pledged members are required to reimburse the UTOPIA debt service fund of any shortfall by their respective percentages up to a specific dollar amount. The City's yearly liability limit is set at a maximum of \$2,189,704. To the extent that the pilot project operates profitably, UTOPIA plans on issuing a total of \$340,000,000 in bonds.

C. Conduit debt obligations

From time to time, the City has issued Industrial Revenue Bonds (IRB's) to provide financial assistance to private sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of June 30, 2006, there are four series of Industrial Revenue Bonds issued and outstanding. The aggregate principal amount payable could not be determined; however, their original issue amounts totaled \$10.315 million, comprising of the following issues:

D. Employee retirement systems and pension plans

Plan description

The City contributes to the Local Governmental Contributory Retirement System, Local Governmental Noncontributory Retirement System, Public Safety Contributory Retirement System, Public Safety Noncontributory Retirement System, and the Fire Fighters Retirement System, (hereafter referred to cumulatively as the Systems) which are cost-sharing multiple-employer defined benefit pension plans administered by the Utah Retirement Systems (URS). The Systems provide retirement benefits, annual cost of living adjustments, death benefits, and refunds to plan members and beneficiaries in accordance with retirement statutes.

The Systems are established and governed by the respective sections of Chapter 49 of the Utah Code Annotated 1953, as amended. The Utah State Retirement Office Act in Chapter 49 provides for the administration of the Systems under the direction of the Utah State Retirement Board (Board) whose members are appointed by the Governor. URS issues a publicly available financial report that includes financial statements and required supplementary information for the Systems.

A copy of the report may be obtained by writing to the Utah Retirement Systems, 540 East 200 South, Salt Lake City, UT 84102 or by calling 1-800-365-8772.

Funding policy

Plan members in the Local Governmental Contributory Retirement System are required to contribute 6.00% of their annual covered salary (all or part may be paid by the employer for the employee) and the City is required to contribute 7.08% of their annual covered salary.

City of Orem
Notes to the Financial Statements
June 30, 2006

5. Other information (continued)

D. Employee retirement systems and pension plans (continued)

Funding policy (continued)

In the Local Governmental Noncontributory Retirement System the City is required to contribute 11.09% of their annual covered salary. In the Public Safety Contributory Retirement System division members are required to contribute 10.50% of their annual covered salary (all or part may be paid by the employer for the employee) and the City is required to contribute 12.47% of their annual covered salary. In the Public Safety Noncontributory Retirement System the City is required to contribute 22.32% of their annual covered salary. In the Firefighters Retirement System plan members are required to contribute 7.83% of their annual covered salary (all or part may be paid by the employer for the employee) and the City is not required to contribute. The contribution rates are the actuarially determined rates. The contribution requirements of the Systems are authorized by statute and specified by the Board.

The City's contributions in dollars to each of the Systems for the years ending June 30, 2006, 2005 and 2004, were equal to the required contributions for each year. The contribution amounts are as follows:

	Fiscal Year Ending June 30,		
	2006	2005	2004
Local governmental contributory retirement system	\$ 261,904	\$ 274,841	\$ 282,179
Governmental noncontributory retirement system	1,081,775	1,021,455	831,492
Public safety contributory retirement system	176,002	159,223	148,099
Public safety noncontributory retirement system	771,696	652,462	602,200
Firefighters retirement system	221,553	200,672	206,658

401(k) defined contribution plan

The City's 401(k) defined contribution plan is administered by ICMA Retirement Corporation (ICMA). The payroll covered by the defined contribution plan for the year ended June 30, 2006 was \$22,230,156. The City's expense for this plan for the year ended June 30, 2006 was approximately \$1,242,000 or 5.6% of the total participants' salary.

The contribution rates were previously fixed by the City Council and the contributions were remitted on a timely basis. All employees are fully vested for the contributions made by the City.

City of Orem
Notes to the Financial Statements
June 30, 2006

5. Other information (continued)

D. Employee retirement systems and pension plans (continued)

401(k) defined contribution plan (continued)

In the early 1980's, the City elected to withdraw from the Utah Retirement Systems (URS) pension plan and contribute these funds to each employee's 401(k) account. However, State lawmakers soon mandated that all employees were required to join the URS except certain classes of employees. The City Council was allowed to identify which employees qualified. They elected to allow department heads, the City Manager, and City Council members the option of whether or not to participate in the URS. There are currently 4 employees who have elected to not participate in the URS.

457 deferred compensation plan

The deferred compensation plan was created in 1981 as a Social Security replacement program for the employees of the City. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The City participates in four plans. The assets associated with these plans are not included in the basic financial statements, as they are not legal assets of the City.

All elected officials and permanent employees may also elect to participate in the City's deferred compensation plan and all temporary employees are required to participate in a deferred compensation plan. Under this plan, participants defer a percentage of their compensation up to 7.5% for executive management personnel and up to 5.5% for all other employees (except for the City Manager, whose participation in the plan is determined through negotiation with the City Council, and employees required to pay Medicare insurance premiums) for employees hired prior to March 1986. For those hired after March 1986 the percentage is 6.0% and 4.0% respectively. The City matches the amount deferred by the participants, not to exceed the legal limit. The payroll covered by the deferred compensation plan for the year ended June 30, 2006 was \$22,230,156. The City's expense for this plan for the year ended June 30, 2006 was approximately \$973,000 or 4.4% of the total participants' salary. The contribution rates were determined by the City Council and the contributions were remitted on a timely basis.

E. Segment information for enterprise funds

The City has issued revenue bonds to finance certain improvements to its culinary water distribution system, water reclamation plant, and storm sewer system. Because each of these activities is accounted for in separate funds and all of those funds are reported as major funds in the fund financial statements, segment disclosures herein are not required.

During the year ending June 30, 2006, the RDA expended monies in the categories below as follows:

Economic Development	\$ 829,059
Interest	-
Total	<u>\$ 829,059</u>

Combining Financial Statements Nonmajor Governmental Funds

Debt Service Funds

Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Debt Service Fund – This fund is used to account for all general obligation debt of the City of Orem. Operating transfers are made from the General Fund to service the debt payments made by this fund. The source of fund revenue for retiring the general obligation debt is principally the power of the City to levy general property tax; however, certain debt is serviced by lease revenues and "C" Road excise tax revenues collected from the State of Utah and franchises taxes.

Municipal Building Authority Debt Service Fund – This fund is used to account for all lease revenue debt of the Municipal Building Authority of the City of Orem Corporation. Lease payments are made from the General Fund of the City. The debt is secured by the value of the underlying property.

Capital Projects Funds

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Municipal Building Authority – Capital Projects Fund – to account for the purchase of property and future park property by the Municipal Building Authority of the City of Orem Corporation for lease to the City.

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

CARE Tax Fund – This fund is used to account for the preparation and implementation of plans to improve, rehabilitate and/or develop cultural arts and recreation facilities within the City.

Redevelopment Fund – This fund is used to account for the preparation and implementation of plans to improve, rehabilitate and redevelop blighted areas within the City.

Community Development & Rehabilitation Fund – to account for a variety of efforts to assist development. It is financed principally by federal entitlements from the U.S. Department of Housing and Urban Development, Community Development Block Grants. Grants and loans are made from this fund to assist housing rehabilitation, business development, and equipment and services that aid the indigent, handicapped, elderly, etc.

**Combining Financial Statements
Nonmajor Proprietary Funds**

Recreation Fund – This fund is to account for the services provided by the City's Fitness Center. The Fitness Center complex includes an indoor swimming pool, indoor track, basketball court, handball courts, racquetball courts, an outdoor swimming pool/water park (Scera Park), and other facilities. A variety of classes and open play are made available to residents and non-residents on a fee basis.

Solid Waste Fund – This fund is to account for the collection of residential garbage within the City. Residential garbage collection services are provided by a private contractor through a contract with the City. Businesses and commercial concerns within the City are not serviced, but may contract with private firms for these same services.

Street Lighting Fund – This fund is to account for providing the residents and businesses of the City with a new street lighting system. Lease Revenue Bonds were issued to cover the purchase and installation of the system. Payment and costs of these bonds are not accounted for here, but are in the Debt Service Fund.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

Fleet Maintenance Fund – This fund is to account for the repair and maintenance of vehicles and equipment for the entire City operation. It is financed by charges made to the funds it services. Supplies and materials are charged at cost to the specific fund. Personnel, administration and overhead costs are charged on an estimated basis established at the beginning of each year.

Purchasing/Warehousing Fund – This fund is to account for the central purchasing and warehousing for the City. It provides the service to all governmental and proprietary funds. It is financed by charges made to the other funds. Funds are charged for supplies and materials at cost. Personnel, administrative and overhead costs are charged on an estimated allocation basis established at the beginning of each year.

Self-Insurance Fund – This fund is to account for the costs of insurance premiums and claims made against the City. Monies are accumulated in this fund to pay premiums for liability and property damage insurance and other claims. The City participates in the Utah Risk Management Mutual Association for its liability and property damage insurance and is responsible for a \$15,000 deductible. Insurance for large vehicles and equipment is purchased from private insurers. The fund also accounts for the insurance benefits of employees i.e., state unemployment insurance, workers compensation insurance (for a limit of \$400,000 per occurrence), health insurance, etc. The fund is financed by allocated charges made to the other funds for liability and property damage insurance. It is based on an allocation established at the beginning of each year for potential risk and prior experience. Charges for employee insurance benefits are made directly to each fund as a part of the payroll system. Another function of the self-insurance fund is to accumulate resources to pay the long-term portion of the compensated absences liability of the general fund.

FIDUCIARY FUNDS

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and which therefore cannot be used to support the City's own programs.

New Friends of the Library Fund – to account for the financial transactions of the New Friends of the Library, a nonprofit organization involved in the expansion of the City of Orem Library.

Orem Foundation Trust Fund – to account for the financial transaction of the Orem Foundation Trust, a nonprofit charitable foundation. The Internal Revenue Service (IRS) granted permission for the City to form and operate as an approved IRS section 501(c)3 charitable foundation. This enables donors broader charitable donation capabilities as donations will be fully tax deductible.

Senior Citizens' Fund – to account for the financial transactions of the Senior Citizens' Organization, a nonprofit organization located within the boundaries of the City of Orem.

STATISTICAL SECTION

(Unaudited)

This section of the City of Orem's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the city's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends	125
These schedules contain trend information to help the reader understand how the city's financial performance and well-being have changed over time.	
Revenue Capacity	132
These schedules contain information to help the reader assess the factors affecting the city's ability to generate its property and sales taxes.	
Debt Capacity and Other Debt Information	144
These schedules present information to help the reader assess the affordability of the city's current levels of outstanding debt and the city's ability to issue additional debt in the future.	
Demographic and Economic Information	158
These schedules offer demographic and economic indicators to help the reader understand the environment within which the city's financial activities take place and to help make comparisons over time and with other governments.	
Operating and Other Information	164
These schedules contain information about the city's operations and resources to help the reader understand how the city's financial information relates to the services the city provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City of Orem implemented GASB Statement 44 for the fiscal year ending June 30, 2006. The new information required by this statement is shown prospectively except in those cases in which prior year information was readily available. The City of Orem implemented GASB Statement 34 in fiscal year 2002; schedules presenting government-wide information include information beginning in that year.

Notes: Property in the City of Orem is reassessed once every five years, on average. The city assesses property at approximately 55 percent of actual value for residential property and 100 percent of actual value for all other categories. Estimated actual taxable value is calculated by dividing taxable assessed value by those percentages.

		Total Taxable Assessed Value	Total Direct Tax Rate	Estimated Actual Taxable Value	Taxable Assessed Value as a Percentage of Actual Taxable Value

Source: Statistical Review of Government in Utah - Utah Foundation

Notes: The city's basic property tax rate is primarily increased by: 1) a majority vote of the City Council after holding public hearings, 2) the approval of general obligation debt by a majority of the City's residents, 3) through a judgment levy due to a court ordered reduction to an entity(s) property tax, and 4) the overall assessed property values of the City's residents are reduced by the County Assessor. Rates for debt service are set based on each year's requirements. The tax rate is applied directly to the taxable value of the property.

¹ Overlapping rates are those of local and county governments. These rates apply to all property owners within the City of Orem.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS ON STATE LEGAL COMPLIANCE IN ACCORDANCE WITH STATE OF UTAH LEGAL COMPLIANCE AUDIT GUIDE

Honorable Mayor and Members of the City Council
City of Orem, Utah

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Orem, Utah (City), for the year ended June 30, 2006, and have issued our report thereon dated December 6, 2006. As part of our audit, we have audited the City's compliance with the requirements governing types of services allowed or unallowed; eligibility; matching, level of effort, or earmarking; reporting; special tests and provisions applicable to each of its major State assistance programs as required by the State of Utah Legal Compliance Audit Guide for the year ended June 30, 2006. The City received the following major State assistance programs from the State of Utah:

B & C Road Funds	(Department of Transportation)
Liquor Law Enforcement	(State Tax Commission)

The City also received the following nonmajor grants which are not required to be audited for specific compliance requirements: (However, these programs were subjected to testwork as part of the audit of the City's financial statements.)

Emergency Medical Services (Department of Health)

Our audit also included testwork on the City's compliance with the following general compliance requirements identified in the State of Utah Legal Compliance Audit Guide:

Public Debt	Other General Issues
Cash Management	Budgetary Compliance
Purchasing Requirements	Liquor Law Enforcement
B & C Road Funds	Uniform Building Code
Truth in Taxation & Property Tax	Standards
Limitations	Asset Forfeiture
Impact Fees	

The management of the City is responsible for the City's compliance with all compliance requirements identified above. Our responsibility is to express an opinion on compliance with those requirements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

The results of our audit procedures disclosed no instances of noncompliance with requirements referred to above.

In our opinion, the City of Orem, Utah, complied, in all material respects, with the general compliance requirements identified above and the requirements governing types of services allowed or unallowed; eligibility; matching, level of effort, or earmarking; reporting; and special tests and provisions that are applicable to each of its major State assistance programs for the year ended June 30, 2006.

This report is intended solely for the information and use of the City Council, management, and the Utah State Auditor's Office and is not intended to be and should not be used by anyone other than these specified parties.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the City Council
City of Orem, Utah

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Orem, Utah (City), as of and for the year ended June 30, 2006, which collectively comprise the City's basic financial statements and have issued our report thereon dated December 6, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement

amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the City Council, management, federal awarding and pass-through entities, and the Utah State Auditor's Office and is not intended to be and should not be used by anyone other than these specified parties.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Mayor and Members of the City Council
City of Orem, Utah

Compliance

We have audited the compliance of the City of Orem, Utah (the City), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2006. The City's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

In our opinion, the City complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2006.

Internal Control Over Compliance

The management of the City is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control

components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of and for the year ended June 30, 2006, and have issued our report thereon dated December 6, 2006. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, the City Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF OREM, UTAH
Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2006

The following are the notes to the supplementary schedule of expenditures of federal awards:

- General – The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal awards programs of the City of Orem, Utah (the City). The City is defined in Note 1 to the basic financial statements. Federal awards received directly from federal agencies as well as federal awards passed through other government agencies are included on the schedule.
- Basis of Accounting – The accompanying Schedule of Expenditures of Federal Awards is presented using the modified-accrual basis of accounting for expenditures of governmental fund types, which is described in Note 1 to the City's basic financial statements.
- Relationship to Basic Financial Statements – Federal financial assistance expenditures cannot be directly reconciled to the basic financial statements because other non-federal revenues are included in intergovernmental revenues.

CITY OF OREM, UTAH
Schedule of Findings and Questioned Costs
June 30, 2006

SUMMARY OF AUDITOR'S RESULTS

Basic Financial Statements
